**CIBSE HKB**

**Message from the Chair**

It is my great honour and pleasure to be elected as the Chair of the CIBSE Hong Kong Branch for the session 2015-2016. It will be a challenging and exciting job right ahead of me to serve over 2,600 CIBSE members in Hong Kong.

Thanks to the excellent work of our past chairs and the wholehearted contribution of the members of Hong Kong Branch Committee, the Shanghai Panel and our Young Engineers Network in the past, a solid foundation has been laid for continuous development of the Branch. During my term of service, I will endeavour to continue and upkeep the good work done by my predecessors. I have set down the following goals to serve members in Hong Kong and help membership development of CIBSE:

1. To promote the building services profession and to build up reputation of CIBSE in Hong Kong and mainland China
2. To provide value-added services to our members and to strengthen communication with them
3. To act as the link between headquarters and the members in Hong Kong
4. To strengthen membership promotion in Hong Kong and mainland China

In addition, as part of the strategic plan of the Branch in the coming year and beyond, task forces will be set up to device action plans to enhance operation efficiency of the branch, to broaden membership in Hong Kong and Shanghai and to promote competency & knowledge of our members. In order to strive for better performance of the Branch, we surely need the continuous support of our members. Please do share with us your views or suggestions that could help to improve the services of the Branch. Last but not least, I would like to take this opportunity to extend my sincere gratitude to our Immediate Past Chair, Dr PL Yuen, and the committee members of Hong Kong Branch and members of the Shanghai Panel and YEN for their valuable contribution during the term of services in 2014 – 2015.

Mr. C. M. Chung  
Chair  
Session 2015-16

**Visit of President Elect and Chief Executive of CIBSE to Hong Kong**

CIBSE President-Elect, Mr. Nick Mead, Chief Executive, Mr. Stephen Matthews and Director of Membership, Ms. Linda Wood visited Hong Kong in November 2014. During their stay, they attended the Joint Symposium 2014 – Change in Building Services for Future, met with members of the HK Branch and visited Hong Kong Polytechnic University, University of Hong Kong, HKIE, ArchSD, and EMSD. Besides, Nick and Stephen have also travelled to Shanghai from 26-28 November together with the delegates of HKB and met with members of Shanghai Panel. They visited the Shanghai Association for Science and Technology, Tongji University and Jiao Tong University. They also met with the students and Professors of the University of Nottingham, Ningbo campus. They had made a

fruitful visit to Shanghai during those few days which facilitated the planning of further development of CIBSE in Shanghai.

## Award of CIBSE Silver Medals

On 22 November 2014, Mr. Thomas Soon, past Chair of CIBSE HKB (right), was presented with CIBSE Silver Medal Award, by Nike Mead, CIBSE's President Elect (left), in the dinner ceremony at Royal Garden Hotel. Thomas has had a long history with the Institution and has been making substantial contribution in the promotion of building services engineering profession in Hong Kong. He has been serving the CIBSE HKB committee for 10 years from 2001 to 2011, during the period he had held the positions included honorary secretary, vice-chair and chair.

## CIBSE AGM on 4 March 2015

The Annual General Meeting of CIBSE Hong Kong Branch was held at 6:30pm on Tuesday, 3 March 2015 at Boardroom & Director Room, World Trade Centre Club, 38/F World Trade Centre, Hong Kong. In addition, a cocktail reception was served before the AGM and a Technical Talk on "LED Lighting – Blue Light Hazard" was delivered by Professor T.M. Chung immediately after the AGM.

During the AGM, Dr. PL Yuen (the Chair) had delivered the annual report on Hong Kong Branch's activities for the session 2014/2015 and Mr. Peter Long (the Honorary Treasurer) had also presented the financial report. Further on, Mr. CM Chung and Mr. KY Leung were elected as the Chair and Vice-Chair respectively for the 2015/2016 session.

## CIBSE Annual Dinner 2015

CIBSE Hong Kong Branch held its 36<sup>th</sup> Annual Dinner for 2015 on 26 March 2015 at the Ballroom of JW Marriott Hotel. Over 400 members and guests participated in this memorable event. We were honored by the presence of our Guest of Honor, Ms. Christine LOH, JP, the Under Secretary for the Environment, and other guests including Government officials representatives of various engineering institutions and engineering departments of universities.

The dinner started with a welcoming speech given by Dr PL Yuen, the Chair of CIBSE Hong Kong Branch, who gave a brief account of the achievements and accomplishments of the Branch in past 12 months. There was presentation of sou-

venirs to all members of the Branch Committee in appreciation of their time and effort in serving the Committee. Also, our Guest of Honor, Ms. Christine Loh delivery a keynote speech on re-commissioning of building. Shortly afterwards, prizes were presented to award-ees of CIBSE Student Prize from different universities.

Amidst the serving of delicious dishes by the hotel, there were lucky draw and lucky divination served to warm up participants of the event. To ensure the fullest enjoyment of all coming to the dinner, professional performer went up to the stage and gave the best of their Hula Hoop Show. One of the highlights of the night, which was also the tradition of

CIBSE Hong Kong Branch, was the performance by the incoming Chair and, this year, Mr CM Chung, led the water drum performance to the audience.

Towards the end of the dinner, Mr Chung, on behalf of the Organizing Committee of the Annual Dinner for 2015, gave his vote of thanks to all members and guests for coming to the dinner and, in particular, members of the Organizing Committee for all their efforts in making the event so successful. Last but not least, Mr Chung invited all to continue rendering their support next year.

## Technical Events

### Joint Symposium 2014 – Change in Building Services for Future in November 2014

On 25 November 2014, the captioned symposium was held at Kowloon Shangri-La Hotel. This symposium was an annual event jointly organized by CIBSE HK Branch, HKIE BS Division and ASHRAE HK Chapter. After the keynote speech by CIBSE President Elect, Mr. Nick Mead, over 200 participants in the symposium shared the paper presentation under the Sub-themes of the symposium including :

- Codes and Guidance
- Design and Research
- Operation and Application
- Maintenance and Performance Management

This symposium successfully facilitated a forum for both researchers and industry practitioners to foster all aspects for us to work toward a better future for the building services engineering industry.

### Comprehensive Certificate Course on Fire Services System in Buildings 2014

The 12-session comprehensive certificate course on fire services systems in buildings 2014 was jointly organized by the CIBSE HK Branch, HKIE BS & Fire Divisions, Building Services Operation and Maintenance Executives Society (BSOMES), the Institution of Fire Engineers (Hong Kong Branch) and the Association of Registered Fire Service Installation Contractors of Hong Kong Ltd (FSICA). It was successfully held from 14 October to 20 November 2014 at the Hong Kong Productivity Council.

The course covered a wide range of topics on fire services system, including design, installation, operation and maintenance, as well as practical case studies. In each session, honorable speakers with extensive professional experiences were invited to share their practical knowledge and precious photos/information on the subject. The participants also had chance to broaden and refresh their knowledge on the traditional and latest fire services system. Overwhelming response from the engineering industry with an average of 258 participants attended each session of the course.

### Heilongjiang (Harbin) - Hong Kong Joint Symposium 2015 "Building Technologies – An Epoch of Enlightenment"

The symposium was successfully held at "Modern Hotel" Harbin on 26 and 27 June 2015. This symposium was jointly organized by CIBSE-Hong Kong Branch, HKIE BS Division, ASHRAE HK Chapter and our mainland partners including 黑龍江省暖通空調委員會、黑龍江省綠色建築專業委員會、中國土木建築學會熱能動力分會集中供熱與熱計量專業委員會. Besides, the Department of Building Services Engineering of the Hong Kong Polytechnic University was the co-organizer of this symposium. Under the main theme of "Building Technologies – An Epoch of Enlightenment", over 100 participants including 43 participants from Hong Kong attended the symposium for sharing their experience with view exchange on the development of building services engineering in Harbin and Hong Kong. Mr. Xu Wei, the Advisor of the Symposium and Mr. Stanley Chow, the representative of Hong Kong Co-organizers gave an opening speech. After that, 12 papers out of the total 19 published papers of the symposium were presented in 4 sessions during the first day. On Next day, the programme started with a group discussion session which was about the development of Sustainable Community and Renewal Energy in Hong Kong. Advisors and audiences actively shared their view and experience in Mainland China. The last session of the

symposium was to introduce the professional institution of both Hong Kong and Harbin. In the end, closing speeches were given by Ir KT Cheuk and 姜国建副主任 who are Hong Kong and Harbin representatives respectively. Finally, group photos were taken together.

## Technical Visit to HKEx Data Centre at Tseung Kwan O

A technical visit to HKEx Data Centre at Tseung Kwan O was held on 17 Jan 2015. HKEx Data Centre was newly completed and put into full operation in late January 2013. The building is directly owned and operated by HKEx, consolidating the primary data centres for all of HKEx’s markets and serving various functional cores including numerous data halls, building facilities operations, ancillary offices, canteen, recreational amenities, building management system as well as integrated physical security system. HKEx Data Centre is one of the most energy-efficient and green data centres in Asia and has been awarded the LEED Gold standard and Excellence in Facility Management Award in 2013.

The technical visit was divided into two parts. Firstly Mr. David Chan, head of the CRE & FM, gave an introduction on the data centre. Then, a site tour was provided to participants to visit various critical facilities, such as UPS and CRAC unit systems, to give participants a better understanding on the overall operations of HKEx Data Centre. The technical visit received overall positive feedback from the participants.

## Social Activities

### CIBSE HKB Golf Competition 2014

The annual event, CIBSE HKB Golf Competition 2014, was held in the public course, the Jockey Club Kau Sai Chau Golf Course Hong Kong, on 12 December 2014. Totally 24 golfers participated in the competition. Everyone enjoyed a lot in this gathering opportunity under a casual atmosphere to promote friendship among each other. All participants were eager to have the next competition as soon as possible.

### Joint Institutions Golf Competition 2015

A joint event, the Joint Institutions Golf Competition 2015, to enhance the co-operation among the HKIE BSD, ASHRAE HKC and CIBSE HKB, was held on 23 January 2015. The ASHRAE HKC was the event organizer this year. The competition of the Championship was vigorous. CIBSE HKB Team won by one strike lesser than the 1st-runner up.

### CIBSE Health Talk - Part I & Part II

The CIBSE Health Talk - Part I was held on 25 April 2015, with over 62 participants. During the talk, the speaker introduced the audiences the basic knowledge of being healthy and shared the way of keeping healthy. This talk was appraised highly by participants. All agreed that they acquired valuable knowledge from the talk. They would like to have the Health Talk – Part II as soon as possible. And the Health Talk 2015 – Part II was held on 13 June 2015 at the Hong Kong Polytechnic University. This event was jointly organized with HKFEMC. The talk was well received that it gave members opportunity to understand our strength in health to improve our quality of life.

### CIBSE Spring Hiking 2015

On 15 February 2015, the weather was just good for hiking. The CIBSE Spring Hiking 2015 was held on 15 February 2015 with great success. Totally 22 participants joined the hiking to Dragon’s Back Trail, which was recommended by TIME Asia as the best urban hiking trail in 2014. The TIME article said the trail is “the city’s finest and most surprising ramble”. All participants did enjoy the walk and the beautiful nature. They expressed that they would surely support the similar coming events held by CIBSE HKB.

## **CIBSE Shanghai Panel**

### **CIBSE SHP Annual Dinner 2014/15**

CIBSE SHP annual dinner 2014/15 was arranged on 27 March 2015 at Tao Heung Restaurant, International APM, Shanghai.

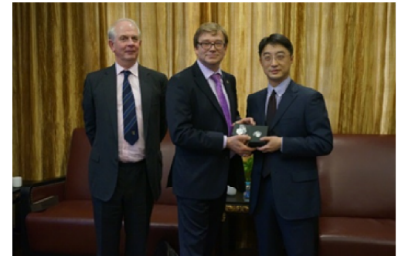

*From left to right  
(Tian Chen, Jingchun Shen, Xingxing Zhang, C H Kei, Alan Lau, Tong Yang, Eddie Lau, Alpha Chu, Edwin Lee)*

## **CIBSE President Elect. Shanghai Visit**

### **A. Meeting with SAST**

Mr. Nick Mead, Mr. Stephen Matthews and the delegates from CIBSE HKB had made a visit to Shanghai on 26 to 28 November 2014. The visiting group and the SHP met the Shanghai Association of Science and Technology (SAST). In the meeting, Mr. Nick Mead expressed the appreciation of the continuous collaborative supports from SAST. Mr. Lu, the Vice Chairman of SAST also shared the market outlook of the engineering Industry in China. (Mr. Stephen Matthews and Mr. Nick Mead presented souvenir to Mr. Lu Lin.)

### **B. Cocktail Reception with Members on 26 November 2015**

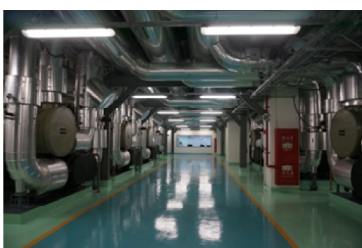

Student members from the University of Nottingham, Ningbo campus presented their course and research projects in the event.

Mr. P L Yuen, Chairman of CIBSE HKB and Mr. Nick Mead President Elect gave a welcome speech to the members.

### **C. Projects Visits**

A technical visit to JingAn Kerry Centre, a mixed use development at the prime location of Shanghai, was arranged on 27 Nov 2015. The participants were impressed by the sustainable system design and the prestigious building quality.

## **Technical Webinar**

CIBSE-HKB SHP co-hosted a Webinar with the Nottingham University Ningbo Campus on 21 April 2015. The topic was "Intelligent Buildings for 21st Century".

The speaker, Mr. Derek Clements-Croome is a Professor Emeritus in architectural engineering at Reading University. He is a member of the UK Green Building Council and was a member of the Health and Well-Being team for the World Green Building Council team in 2014. He chairs the CIBSE

Intelligent Buildings Group and sits on the CIBSE Schools and Natural Ventilation Groups. He was Vice-President of CIBSE 2007-2009 and held bronze and silver medal awards.

The webinar was well received. During the webinar, viewers were encouraged to ask any questions they had regarding intelligent building and were addressed by the speaker. Overall, the webinar received overwhelming positive response from viewers.

## Technical Supports

CIBSE-HKB SHP supported as the panel members for a Design Competition Campaign launched by UNNC 2015. On 7 and 8 June 2015, Mr. Eddie Lau and Mr. Alan Lau represented SHP to join the panel meeting and offered technical assessment to the design submissions by the contestants. The contestants submitted their designs for a classroom in the HEPAN primary school located at the rural areas of Gansu province China,

where the weather is cold and dry in most of the year.

The infrastructure is extremely primitive with lack of water, public drainage and power. The cost of building a classroom for the villages living nearby would be donated by a charity organization in China. SHP committed to deliver our technical supports for providing advice for the project.

## CIBSE YEN

### Promotion Talks to Local University and Technical Institutions

Every year, a large number of students studied and graduated from local universities and technical institutes such as PolyU, CityU, HKU and IVE, etc. Together with those in Building Services Engineering students/ graduates from other engineering departments such as Mechanical Engineering and Electrical Engineering, there are hundreds of young students/ engineers would dedicate themselves to the local and overseas industry of Building Services Engineering. They will be the future leaders in the Engineering field. These students/ young engineers would need some guidance and preparations before they are ready to perform in their duties and well prepared for taking up all the new challenges. Therefore, experienced core committee members from CIBSE HKB YEN conducted presentations to Building Services Engineering students in different local universities and IVE each year. The presentation

is aimed to introduce the CIBSE HKB and CIBSE HKB YEN to them and provide an interacting platform and communication channel for the students to ask for help and receive any kind of useful information regarding the Building Services Engineering Industry during their studies and starting of their future career.

Through the promotion talks, YEN would build up an initial network with students to identify their needs. Once identifying their needs, we could organize activities to suit the students. We hope, with encouragement and support from the wider CIBSE membership, we can more successfully enhance the fellowship and unity amongst those who have already chosen to study/ work in our industry and encourage more from parties/ stakeholders to investigate the many appealing aspects of building services engineering.

## YEN Chairs Conference 2015

YEN Chairs Conference is held annually. All the YEN Chairs and Vice-Chairs among 16 regions attend the conference with the present of representatives from Headquarters. This year, it was successfully held from 18 April 2015 at London together with a technical tour – The Crystal at London.

The full day conference started with a Site Visit at The Crystal at London. The Crystal in London is home to the world's largest exhibition on the future cities, as well as one of the world's most sustainable buildings and event venues. Due to its innovative architecture and technology, The Crystal is achieving outstanding BREEAM accreditation and Platinum LEED accreditation – the most stringent standards for sustainable design and construction.

After the site visit in the morning, CIBSE YEN Chair's meeting was held between

CIBSE HQs, all the YEN Chairs and Vice-Chair who represented for different centres and regions. It was chaired by YEN reps, Ms Carla Bartholomew. CIBSE HQ Technical Director, Mr. Hywel Davies and YEN Mentor, Mr. Andrew Saville presented as advisors. The ultimate goal of this meeting was to pull together all the YEN centres to discuss matters concerning YEN including its role within CIBSE, new move, share the good experience and problems of each centre faced. Assistance to newly formed centre was raised. The experience of promotion, event organization and financial plan will be shared. It was a unique opportunity for YEN to discuss matters with CIBSE as well as challenge things. The development of YEN has been reviewed since its formation and shared the opportunities for further growth of the network.

## One Day Seminar on Contract Management 2015

The One Day Seminar on Contract Management 2015 has been successfully hosted on April 25, 2015, which was co-organized by The Chartered Institute of Arbitrators (East Asia Branch) Young Members Group (CIARB-YMG), the Young Engineers Network of The Chartered Institution of Building Services Engineers (CIBSE HKB YEN), the Young Members Committee of The Hong Kong Institution of Engineers (HKIE-YMC), the Young Surveyors Group of The Hong Kong Institute of Surveyors (HKIS-YSG), the Graduates and Students Division of the Institution of Civil Engineers (ICE-G&S), and the Young Solicitors' Group of The Law Society of Hong Kong (LSHK-YSG) and supported by Department of Building Services Engineering of The Hong Kong Polytechnic University. Over 300 members of above mentioned professional associations participated in the seminar regarding to this complicated and

multidiscipline theme-construction contract management. This year, a series of talks covering different aspects including Overview of New Engineering Contracts (NEC), Negotiation of Construction Contract, Latest on Delay and Variation and Tendering was presented by six esteemed speakers from different disciplines. Ms. Joyce Leung from Hogan Lovells. Sr. KT Woo from Rider Levett Bucknall. Mr. Christopher To, a chartered arbitrator and a law professor. Mr. Dennis Li from Black & Veatch Hong Kong Limited. Sr. Thomas Ho from TLS & Associates Ltd. Mr. Harrison Cheung, visiting Lecturer at the faculty of law of HKU, faculty of building and real estate and the Institute for Entrepreneurship of the PolyU, On behalf of CIBSE HKB YEN, congratulations and thanks the joint young professional group committee once again to organize the annual seminar successfully.

## Safety Seminar on "Safety Lesson Learnt For Better BS Practices"

Safety is the first issue to be considered in construction industry, including our Building Services Engineering. As a professional engineer, it is important to consider and integrate the safety elements in their design, construction management and process and system operation. Hence, CIBSE HKB-YEN organized a safety seminar on 17 Jun 2015 to share practical experience on the safety issue to our young members.

Mr. Eric Wong, the Unit Health & Safety Manager for Gammon Construction Limited, was invited to be our speaker and more than 30 members joined this seminar. During the seminar, Mr. Eric had introduced and shared the practical experience of various aspects in BS industry, including lifting appliance, working in height, and etc. Root causes of some frequent accidents and recommendation for the respected accident were also mentioned in order to equip our young

member to minimize the accident rate in BS industry. CIBSE HKB-YEN will continue to organize such safety seminar and promote the importance of safety.

## French Cooking Class

CIBSE HKB YEN organized a French Cooking Class on 24 July 2015. All the members enjoyed a remarkable evening with hands-on cooking experience and a four-course dinner. The event began with a warm welcome and a brief introduction on the schedule and receipts by the instructor. Members were split into groups and each group was assigned with specific tasks for the preparation of dinner. The dishes included pan-fried duck liver with apple, creamy pumpkin and carrot soup, crab meat linguine with champagne sauce and rose apple tart. The event was full of joy and the cooking experience was pleasant and memorable.

## Seminar on Financial Planning

The Seminar on Financial Planning co-organized by The Institution of Engineering and Technology (IET) and CIBSE HKB YEN had been successfully held on 20 July in the Hong Kong Polytechnic University, with 45 participants in total. Mr Philip Ko, the Unit Manager of Manulife Limited, who is a certified financial planner, was invited to be our guest speaker. Mr Ko had introduced the concept of Financial Planning, the four types of the planning, including Risk Management, Investment Management, Education Planning and Retirement Planning, and how the plan can be achieved. He defined financial planning as the decision in advance of how much to spend, on what to spend according to the funds at your disposal. Financial planning began with determination of total capital requirement, especially when you were retired. With the current capital you had, then the next step is deciding how to raise this finance. It included long term investment decision by fixing the most appropriate capital structure and selecting the most suitable financial planning. The concepts can be applied in all business enterprise on financial control to carry out its operations smoothly.

## Young Engineers' Reception 2015 – Let's sustain our Engineering Career

In current fast expensing age of our industry, opportunities are everywhere and the industry are at peak of our history. Can our golden period extend for another decay? Our enthusiastic CIBSE YEN members are eager to find out their future direction, and the young engineers will never miss a chance to express their visions. Together with 12 professional societies, a joint-societies event cum Young Engineers' Reception 2015, namely "Let's sustain our engineering career" was successfully held on 9 May 2015. The event was proudly invited the former News anchor, Miss Rachel Miu, and Legislative Councilor, Ir Dr Hon Lo Wai Kwok, to be the guests of honor sharing their insights, and inspiring our industry new force. The event begins with Miss Rachel Miu's insight of current media ecology in Hong Kong and the media relationship awareness for engineers. She reminded our young engineers that the use of language and political awareness are critical to give any response to the media. The words are not in our hands once they are spoken out. Coming up next is Ir Dr Hon Lo Wai Kwok's inspiration of how to turning Hong Kong into a smart city and create opportunity for young engineers. He suggested our current golden age are thanks to the innovative seniors to think outside the border in the past. The responsibilities to secure and sustain our future are

now left to our decisions.

After the inspiring talks, young engineers are eager to express their point of view. The event wrap up with our guests' constructive response and leave a lot of inspiration to our young engineers.

## Technical Seminar on "Leading Edge Trend of Decarbonization & Sustainable Built Environment Design"

The technical seminar was successfully held on 29 July 2015 at the Hong Kong Polytechnic University. Over 30 participants were attended the seminar.

"Sustainability" is one of the key scientific and engineering practices in creating green and low carbon environment, and it is much needed to support the development of Hong Kong and the Region. Urban district and building sustainability development requires multi-disciplinary practice to achieve continuous measurement. Increased efforts in this area will help Hong Kong become a more responsible metropolis and contribute toward a low-carbon, sustainable built environment for future generations to enjoy. This seminar covered the latest trend of sustainability considerations in built environment design with cases studies. Ir. Alvin Lo, an Associate and a Team Leader in Building Sustainability Group of Arup, started the seminar with his sharing of

some facts about energy consumptions in Hong Kong. Alvin shared his inspiration with the attendants regarding the role of a Building Services Engineer, which shall not be limited to a passive role on supporting the architects but also contribute proactively to involve in considerations of sustainable design features which helps promote sustainability and decarbonization. Alvin also shared his experience on innovative designs in several projects demonstrating how optimization has been achieved with both active and passive designs.

At the end, there was enthusiastic dialogue between speaker and participants during the Q & A session, they shared their own experience in different project regarding to the sustainability built environment design.

## Chartership and Membership Briefing Session 2015

The Chartership and Membership Briefing Session was held successfully on August 31, 2015 at The Hong Kong Polytechnic University. More than 70 young engineers join the session. This session is specially designed for those who are planning to apply for or upgrade their CIBSE Membership and seeking professional registration with the Engineering Council (UK). It provides an excellent opportunity for prospective candidates to discuss with CIBSE Professional Interview Coordinator and be knowledgeable on the applications for the Corporate Member (MCIBSE & CEng registration).

It is our honour to have Mr Vincent Luk, CIBSE-HKB Honorary Advisor and Professional Interview Coordinator, Mr John Cheung, CIBSE-HKB Professional Interview Coordinator, and Mr. Steven Chow, CIBSE

-HKB YEN Honorary Secretary, as guest speakers that evening. Valuable information is provided such as CIBSE Membership requirements and routes, application procedure, how to identify main competence areas using Competence Criteria, the focus of "Engineering Practice Report" and "Professional Review Interview", tips for do's and don'ts for professional assessment and reasons for failure, and last but not least, the road to be a Chartered Building Services Engineer.

At the end of the session, the speaker emphasis the message: "The interview is your opportunity to present your achievements as a professional building services engineer. CIBSE wants you to succeed!"

## **Upcoming Events**

### **CIBSE HKB**

Joint Comprehensive Certificate Course on HVAC&R System in Building 2015

CIBSE One-day Seminar on CIBSE Guide M(2014) Maintenance Engineering and Management

The 13th Asia Pacific Conference on Built Environment "Next Gen Technology to make Green Building Sustainable"

CIBSE Red Wine Tasting Workshop + Feng Shui Sharing

Chinese Tea Appreciation Class

CIBSE HKB Golf Competition 2015
