EVOLUTION OF CIBSE

- Established in 1897
- Formerly named as The Institution of Heating and Ventilating Engineers (IHVE)
- Combined with Illuminating Engineering Society (IES) in 1976
- Renamed as The Chartered Institution of Building Services Engineers (CIBSE) in 1985
- Total 17 branches in UK and 3 oversea branches

CIBSE-HKB CHAIR'S MESSAGE

The 35th Anniversary is a memorable stage for CIBSE-HKB in the evolution as a mature organization. Following the incorporation of CIBSE-HKB Ltd in 2005 and establishment of secretariat office in 2006, we have been registered as a charitable organization in 2008 along with the establishment of various operating procedure and policies.

We have continued the effort to enrich our members as in the past, such as organizing various technical activities and enabling web-site access for relevant documents and seminars material as organized. In addition, we have been moving towards more participation in engineering research along with academic institutions to reinforce academic status of our institution and promote engineering excellence amongst our members.

As a contribution to the society and also to reinforce the recognition of our institution in the society, we have maintained presence in various government technical task forces.

May I express appreciation of devotion and contribution of CIBSE-HKB committee members, Young Engineers Network (YEN) and particularly our Shanghai Panel (SHP) in bringing forth the achievement and looking forward with enthusiasm that we will serve our members and the society even further in the future.

CIBSE-HKB Chair (2013/14)
John Cheung

VISION OF CIBSE

The Chartered Institution of Building Services Engineers (CIBSE) has the visions of promoting the art, science and practice of building services engineering for the benefit of all, and the advancement of education and research in building services engineering.

THE INSTITUTION HAS TWO MAIN FUNCTIONS:

1. It confers an internationally recognized badge of quality;
2. It undertakes a wide range of learned society activities ranging from producing information services and acknowledged industry good practice publications in its series of Guides and other publications, to running a wide range of events, and to providing extensive networking activities through a series of regional and special interest groups.

ABOUT CIBSE-HKB

The Hong Kong Branch (HKB) is one of the largest CIBSE regions and has about 2,500 members. CIBSE-HKB represents CIBSE in Hong Kong, especially with respect to membership development, public image and co-ordination with other learned societies in Hong Kong. The HK Branch also administers the grant from Headquarters for the interest of CIBSE members in Hong Kong and conducts professional review interviews and training assessment in Hong Kong on behalf of Headquarters.

The HK Branch not only organizes appropriate activities for and provides membership or training advice to CIBSE members in Hong Kong, but also advises, assists and monitors the learned society functions organized jointly with Building Services Division of HKIE, Hong Kong Chapter of ASHRAE for CIBSE members in Hong Kong.
