Programme Highlight

CIBSE YEN are pleased to present a technical visit to Hilti Hong Kong Tool Service Centre, which is a 9,000 sq. ft. brand new setup offering “Top of the class” power tool services including tool diagnosis, inspection and testing process. The purpose of the visit is for participants to learn more about firestop design and safety installation technology and applications with demonstration.

Hilti is a global company, based in over 120 countries with more than 23,000 employees. Hilti offers service from software for design, products and tools for work onsite to training, repairs, testing and consultancy in particular on anchoring systems, power tools and firestops, which power the professional construction industry.
