2:30 - 5:30pm (Registration from 2:00pm)

* Exhibition Hall, 1/F, Public Health Laboratory Centre,
382 Nam Cheong Street, Kowloon

* Venue changed to the above address

Background

The Seminar on Healthcare Engineering Systems of Private Hospitals is organised by the Department of Health (DH) and co-organised by the Electrical and Mechanical Services Department (EMSD). The Seminar is supported by The Hong Kong Institution of Engineers (HKIE), The Institute of Healthcare Engineering and Estate Management Hong Kong Branch (IHEEM HKB), ASHRAE Hong Kong Chapter (ASHRAE HKC) and The Chartered Institution of Building Services Engineers Hong Kong Branch (CIBSE HKB).

Purpose of the Seminar

The purpose of the Seminar is to brief engineering and related healthcare professionals on the requirements and standards of healthcare engineering systems of private hospitals in Hong Kong. Healthcare engineering systems comprise electrical installations, specialized ventilation systems and medical gas pipeline systems. The seminar will also introduce the requirement of certification of healthcare engineering systems by registered professional engineers of the relevant disciplines. Expert speakers are invited to share their experience on the application of internationally acceptable healthcare engineering standards to hospitals.
