Programme Highlight:

Riding on the success of CIBSE Building Performance Awards (BPA) in UK, the new CIBSE Hong Kong Awards programme on Building Services Engineering as pilot in Hong Kong context initiated by CIBSE Hong Kong Region (HKR) was first launched in 2019.

In recognition of demonstrated engineering excellence in the built environment, the Awards can provide a new ground for encouraging projects in (a) building construction industry and (b) facility management industry. Most importantly, it would drive organizations and engineering professionals to collaborate and deliver the most appropriate and cost-effective solutions from design right through to installation and beyond with common goals to improve efficiency, quality, safety and reduce operating costs through more effective building services installation to the benefit of business and society.

The second CIBSE Hong Kong Awards which will be launched in January 2021 is the only industry award that focus on actual, measured performance outcomes in built environment, and not just design intent or performance specifications. Entries are open to any organization within Hong Kong, that is responsible for the design, construction, installation, commissioning and operation of low energy buildings with high quality built environment.
